**Stephanie Clark Receives  
ADSA Foundation Scholar Award in Dairy Foods**

**Savoy, IL** — The American Dairy Science Association is proud to announce Stephanie Clark of Washington State University as the 2007 recipient of the ADSA Foundation Scholar Award in Dairy Foods. The award was presented on Tuesday, July 10, 2007, during the awards ceremony at the ADSA Annual Meeting in San Antonio, Texas.

The ADSA Foundation Scholar Award in Dairy Foods was created to recognize a young scholar from the Dairy Foods Division and their potential in research and educational leadership, and to identify critical issues affecting the future of the dairy industry. Special requirements include a ten year or less post-final academic degree, current active membership in the American Dairy Science Association, exemplary research and/or educational programs (instruction, extension, or industry), and potential for future leadership.

Stephanie Clark is an associate professor with the Department of Food Science and Human Nutrition at Washington State University in Pullman, where she maintains a 70% research, 30% teaching appointment. Clark has more than 13 years of experience in the food science field. She received a BS in animal science and MS and PhD degrees in food science from Cornell University. She teaches cheese making to many audiences including as a volunteer in Armenia. Stephanie Clark combines her expertise in dairy chemistry, microbiology, sensory evaluation, and product development to pursue her passion for teaching, research, and service.

It is with great pleasure that ADSA presents Stephanie Clark with the 2007 ADSA Foundation Scholar Award in Dairy Foods.
