**Lorilee Schultz Receives
Genevieve Christen Distinguished Undergraduate Student Award**

Savoy, IL — The American Dairy Science Association is proud to announce Lorilee Schultz of Iowa State University as the 2007 recipient of the Genevieve Christen Distinguished Undergraduate Student Award. The award was presented on Tuesday, July 10, 2007, during the awards ceremony at the ADSA Annual Meeting in San Antonio, Texas.

The Genevieve Christen Distinguished Undergraduate Student Award was created to recognize distinguished undergraduates who have demonstrated leadership ability, academic achievement, involvement in the industry, and participation in SAD and local club activities.

The 2007 Genevieve Christen Undergraduate Student Award is presented to Lorilee Schultz of Iowa State University. With an anticipated graduation date of December 2007, Lorilee will receive dual degrees in agricultural business and economics, with minors in animal science and journalism. Following graduation, she will return to the family dairy farm in Orangeville, Illinois. She plans to continue freelance writing for agricultural publications and organizations, while also helping to coach dairy quiz bowl and judging teams. Her extraordinary academic record, proven leadership success, and recognized industry achievements, along with her genuine love of, and devotion to, the dairy industry make Lorilee a very worthy recipient of this honor.

It is with great pleasure that ADSA presents Lorilee Schultz with the 2007 Genevieve Christen Distinguished Undergraduate Student Award.
