Emily Waggoner Receives Genevieve Christen Distinguished Undergraduate Student Award

Champaign, IL – The American Dairy Science Association is proud to announce Emily Waggoner as the 2009 recipient of the Genevieve Christen Distinguished Undergraduate Student Award. The award was presented on Tuesday, July 14, 2009, during the awards ceremony at the ADSA Annual Meeting in Montreal, QC, Canada.

The Genevieve Christen Distinguished Undergraduate Student Award was created to recognize distinguished undergraduates who have demonstrated leadership ability, academic achievement, involvement in the industry, and participation in SAD and local club activities.

Emily Waggoner is someone the dairy industry can be proud to have in its corner. A recent graduate of Clemson University, Waggoner will attend the University of Georgia, College of Veterinary Medicine, in the fall focusing on production animal medicine. She was the three-term president of Clemson's Dairy Science Club, 2008–2009 ADSA-SAD president, family dairy partner, undergraduate researcher, and veterinary clinic volunteer all while maintaining a perfect academic record. Her zest for life and the dairy cow has fashioned new dairy enthusiasts and revitalized the passion in others. She exemplifies the leadership, service to industry, and academics this award represents.

It is with great pleasure that ADSA and the ADSA Foundation present Emily Waggoner with the 2009 Genevieve Christen Distinguished Undergraduate Student Award.
