Isaac Salfer Receives Alltech Inc. Graduate Student Paper Publication Award

Champaign, IL—The American Dairy Science Association® (ADSA®) is pleased to announce Isaac Salfer as the 2019 recipient of the Alltech Inc. Graduate Student Paper Publication Award. The award will be presented on Monday, June 24, 2019, during the awards ceremony at the ADSA Annual Meeting in Cincinnati, Ohio.

The Alltech Inc. Graduate Student Paper Publication Award recognizes a graduate student who has published a paper in the Journal of Dairy Science® (JDS®). The manuscript must be based on research conducted by the student before his or her final oral examination and must list the student as senior author.

Isaac Salfer grew up in rural Minnesota, where he owned a small herd of dairy heifers. Salfer completed a bachelor’s degree in animal science at the University of Minnesota in spring 2013. He stayed at the University of Minnesota for a master’s degree program, studying rumen fermentation in the laboratory of Marshall Stern. He then completed a PhD focusing on nutritional and environmental factors influencing daily and annual rhythms of milk synthesis at The Pennsylvania State University in the laboratory of Kevin Harvatine. Upon completion of his PhD, he started a faculty position at South Dakota State University.

It is with great pleasure that ADSA and Alltech Biotechnology Center present Isaac Salfer with the 2019 Alltech Inc. Graduate Student Paper Publication Award.
