FOR IMMEDIATE RELEASE

Adriano Cruz Receives JDS Highly Cited Award

Champaign, IL—The American Dairy Science Association® (ADSA®) is pleased to announce Adriano Cruz as a 2019 recipient of the Journal of Dairy Science® (JDS®) Highly Cited Award. The award will be presented on Monday, June 24, 2019, during the awards ceremony at the ADSA Annual Meeting in Cincinnati, Ohio.

The number of citations a published study receives provides an excellent indication of its importance to its research community. The JDS Highly Cited Award program has been established by ADSA to formally recognize contributors to JDS whose work significantly affects research and the dairy industry.

The JDS Highly Cited Award was awarded to Adriano Cruz and coauthors for their paper titled “Manufacture of probiotic Minas Frescal cheese with Lactobacillus casei Zhang,” which was published in the January 2016 issue of JDS.

It is with great pleasure that ADSA presents Adriano Cruz with the 2019 JDS Highly Cited Award.
