Nicolas Gengler Receives J. L. Lush Award in Animal Breeding

Champaign, IL—The American Dairy Science Association® (ADSA®) is pleased to announce Nicolas Gengler as the 2019 recipient of the J. L. Lush Award in Animal Breeding. The award will be presented on Monday, June 24, 2019, during the awards ceremony at the ADSA Annual Meeting in Cincinnati, Ohio.

The J. L. Lush Award was created to recognize outstanding research in animal breeding. The winner must have done research work published in the 10 years immediately preceding the year of recognition, performed research in any area of animal breeding and genetics that had or has the potential for improvement of dairy cattle, and have been a member of ADSA for at least five years.

Nicolas Gengler is a professor of numerical genetics, genomics, and modeling at the University of Liège, Gembloux Agro-Bio Tech, in Belgium. He collaborates closely on novel topics with industry in Europe, the United States, and beyond. In particular, he is considered an expert in the development of novel tools based on milk spectral data. He is also a frequent invited speaker for both science and industry in French, German, and English. He has published more than 143 refereed papers in scientific journals, at least 72 of which were published in the Journal of Dairy Science®.

It is with great pleasure that ADSA and the Council on Dairy Cattle Breeding present Nicolas Gengler with the 2019 J. L. Lush Award in Animal Breeding.
