Leo Timms Receives Purina Animal Nutrition Teaching Award in Dairy Production

Champaign, IL—The American Dairy Science Association® (ADSA®) is pleased to announce Leo Timms as the 2019 recipient of the Purina Animal Nutrition Teaching Award in Dairy Production. The award will be presented on Monday, June 24, 2019, during the awards ceremony at the ADSA Annual Meeting in Cincinnati, Ohio.

The Purina Animal Nutrition Teaching Award in Dairy Production was created to recognize outstanding teaching of undergraduate students in dairy science. The winner must have demonstrated outstanding ability as a teacher of undergraduate students of dairy science in an accredited college or university, been an active teacher when nominated with not less than a total of 10 years of active teaching preceding, and been a member of ADSA for at least five successive years.

Leo Timms has developed 16 course opportunities at Iowa State University, and his teaching evaluations rank him first or second in his departments. He has presented in 17 other animal science classes, 15 veterinary science courses, and courses in food science and human nutrition, sustainable agriculture, agricultural engineering, technology systems management, and honors seminars. He developed the first New Zealand agricultural systems study abroad course and the first US dairy production medicine veterinary course. He has trained 47 undergraduate teaching assistants and has mentored 137 undergraduate independent-study projects.

It is with great pleasure that ADSA and Purina Animal Nutrition present Leo Timms with the 2019 Purina Animal Nutrition Teaching Award in Dairy Production.
